

Safety Data Sheet

Evercrete Vetrofluid

Revision:

26 March 2021

Supersedes version: 5th June 2017

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product Identifier:

Evercrete Vetrofluid

1.2 Relevant identified uses of the substance or mixture and uses advised against recommended use:

Deep penetrating sealer for concrete. Curing agent, hardener and waterproofing.

1.3 Detail of the supplier of the safety data sheet:

Ecobeton Europe Srl
Via G. Galilei, 47
36030 Costabissara Vicenza
Italy

1.4 Emergency telephone number:

Call Ecobeton: +39 0444 971893 - Mon - Fri 9am - 6pm

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture:

EC regulation criteria 1272/2008 (CLP):

Not a hazardous substance or mixture.

2.2. Label elements:

No labeling according to GHS required.

2.3. Other Hazards:

PVT: none

vPvB: none

Other Hazards: none

SECTION 3: Composition/information on ingredients

Chemical identity:

Sodium silicate in aqueous solution

3.1 Substances:

Not applicable.

3.2 Mixtures:

This mixture does not meet the criteria for classification in accordance with Regulation (EC) No 1272/2008.

SECTION 4: First aid measures

4.1 Description of first aid measures

General advice: Under ordinary workplace conditions: No special measures required.

Inhalation: Move person to fresh air. If effects occur, consult a physician.

Skin contact: Take off contaminated clothing. Wash with plenty of water or water and soap. Seek medical attention if symptoms occur or irritation persists.

Eye contact: Rinse immediately with plenty of water. Remove contact lenses, if present and easy to do. Seek medical advice in case of continuous irritation.

Ingestion: Rinse mouth with water. Do not induce vomiting. If effects occur, consult a physician.

4.2 Most important symptoms and effects, both acute and delayed:

Specific information on symptoms and effects caused by the product are unknown.

4.3 Indication of any immediate medical attention and special treatment needed:

Not available.

SECTION 5: Firefighting measures

5.1 Extinguishing media

Suitable extinguishing media: All extinguishing agents can be used.

Unsuitable extinguishing media: None known.

5.2 Special hazards arising from the substance or mixture

None.

5.3 Advice for firefighters

Product does not burn. Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. Use personal protective equipment.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures:

For non-emergency personnel: If material is released indicate risk of slipping. Use personal protective equipment.

For emergency responders: Use personal protective equipment. Stop the leak if the operation is safe. Keep people not involved in emergency intervention away from the area affected by the spreading.

6.2 Environmental precautions:

Prevent further leakage or spillage if safe to do so. Discharge into the environment must be avoided.

6.3 Methods and materials for containment and cleaning up:

Suck up the leaked product into a suitable container. Clean up remaining materials from spill with suitable absorbant.

6.4 Reference to other sections:

See sections: 7, 8, 11, 12 and 13.

SECTION 7: Handling and storage

7.1 Precautions for safe handling:

Take care to prevent spills, waste and minimize release to the environment.

7.2 Conditions for safe storage, including any incompatibilities:

Keep in properly labelled containers. Protect against frost.

Do not store with the following product types: Aluminium.

Unsuitable materials for containers: Aluminium.

7.3 Specific end use(s):

See the technical data sheet on this product for further information.

SECTION 8: Exposure controls/personal protection

8.1 Control parameters

TLV Occupational exposure limit: Not available

DNEL Exposure limit values: Not available

PNEC Exposure limit values: Not available

8.2. Exposure controls

Appropriate engineering controls: No special measures required.

Individual protection measures

Eye/Face protection: Use protective goggles.

Skin Protection: Hand Protection: Use of protective gloves is recommended when handling the material. Other: Wear professional long-sleeved work clothes and safety footwear (category S2 or superior).

Respiratory protection: Wear a protective mask during spray application.

Thermal hazards: Not Available.

Environmental exposure controls

See SECTION 7: Handling and storage and SECTION 13: Disposal considerations for measures to prevent excessive environmental exposure during use and waste disposal.

SECTION 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

Physical state	liquid
Colour	transparent
Odour	odourless
Melting point/freezing point	~ 0°C
Boiling point or initial boiling point and boiling range	~ 100°C
Flammability	n.d. (non flammable liquid)
Lower and upper explosion limit	n.d. (non explosive liquid)
Flash point	n.d. (non flammable liquid)
Auto-ignition temperature	n.d. (non flammable liquid)
Decomposition temperature	n.d. (inorganic liquid)
pH	> 11
Kinematic viscosity	n.a.
Solubility	n.a.
Partition coefficient n-octanol/water (log value)	n.d. (mixture)
Vapour pressure	n.a.
Density and/or relative density	1.125 g/cm ³
Relative vapour density	n.a.
Particle characteristics	n.a. (liquid)

9.2 Other information

No data available.

SECTION 10: Stability and reactivity

10.1. Reactivity

Not classified as a reactivity hazard.

10.2. Chemical stability

Stable under normal conditions.

10.3. Possibility of hazardous reactions

The product can react with acids. It can react with aluminum, zinc, tin and their alloys to produce hydrogen.

10.4. Conditions to avoid

None known.

10.5. Incompatible materials

None known.

10.6. Hazardous decomposition products

No one in particular.

SECTION 11: Toxicological information

11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

Acute toxicity

Acute oral toxicity Based on available data, the classification criteria are not met

Acute dermal toxicity Based on available data, the classification criteria are not met

Acute inhalation toxicity Based on available data, the classification criteria are not met

Skin corrosion/irritation

Due to the pH of the material, it is assumed that exposure may cause skin irritation.

Serious eye damage/eye irritation

Due to the pH of the material, it is assumed that exposure may cause severe eye damage.

Respiratory or skin sensitization

For respiratory sensitization: No relevant data found.

Germ cell mutagenicity

Based on known data a significant mutagenic potential may be excluded.

Carcinogenicity

For this endpoint no toxicological test data is available for the whole product.

Reproductive toxicity

For this endpoint no toxicological test data is available for the whole product.

Specific Target Organ Systemic Toxicity (Single Exposure)

For this endpoint no toxicological test data is available for the whole product.

Specific Target Organ Systemic Toxicity (Repeated Exposure)

For this endpoint no toxicological test data is available for the whole product.

Aspiration Hazard

Based on physical properties, not likely to be an aspiration hazard.

11.2 Information on other hazards

None available.

SECTION 12: Ecological information

12.1. Toxicity

No expected damaging effects to aquatic organisms. According to current knowledge adverse effects on water purification plants are not expected.

12.2. Persistence and degradability

No information available.

12.3. Bioaccumulative potential

No adverse effects expected.

12.4. Mobility in soil

No adverse effects expected.

12.5. Results of PBT and vPvB assessment

No data available.

12.6. Endocrine disrupting properties

None known.

12.7. Other adverse effects

According to present knowledge no adverse influence to environment expected.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Containers may be recycled or re-used.

SECTION 14: Transport information

14.1. UN number or ID number	Not regulated for transport.
14.2. UN proper shipping name	Not regulated for transport.
14.3. Transport hazard class(es)	Not regulated for transport.
14.4. Packing group	Not regulated for transport.
14.5. Environmental hazards	Not Hazardous to the environment.
14.6. Special precautions for user	Relevant information in other sections has to be considered.
14.7. Maritime transport in bulk according to IMO instruments	Bulk transport in tankers is not intended.

SECTION 15: Regulatory Information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

Other safety, health and environmental regulations/legislation specific for the substance or mixture: None available.

15.2. Chemical safety assessment

No Chemical Safety Assessment has been carried out for this substance/mixture.

SECTION 16: Other information

Classification and procedure used to derive the classification for mixtures according to Regulation (EC) No 1272/2008

The information contained in this Safety Data Sheet is derived from the data provided by the suppliers of the components of the mixture, that we verified adequate and reliable by analogy with similar products and with the information provided by ECHA.

Legend

CLP	Regulation (EC) No 1272/2008 of the European Parliament and of the Council of 16 December 2008 on classification, labelling and packaging of substances and mixtures
GHS	Globally Harmonized System
IMO	International Maritime Organization
PBT	Persistent, Bioaccumulative and Toxic substance
REACH	Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals
SDS	Safety Data Sheet
UN	United Nations
vPvB	Very Persistent and Very Bioaccumulative
